**BULLETIN.**  
By Associated Press.  
LONDON, March 19.—The head of the German army has invited a number of neutral correspondents to be present at the German offensive on the western front, the Exchange Telegraph reports. The correspondents, it is stated, will leave for the front on Wednesday.

LONDON, March 19.—Fifteen persons were killed and great material damage was done by bombs dropped by allied aircraft when they raided Coblentz, Germany, on March 18, according to a neutral traveler who arrived Monday at the Hague, the Times says.

"The people believe the raiders were Americans," the traveler said. "I was in the neighborhood of a big munitions works at Mulheim (north of Coblentz and also on the Rhine) at 10 minutes past noon when suddenly all the factory whistles started blowing and the sirens were sounded. Many women rushed from the works for the bomb proof shelters, while passing streets cars were stopped as the crews sought to houses. Four or five planes were visible in the clear sky. Presently some one exclaimed: 'They are Americans.' Another screamed aloud: 'The Americans are coming.' A Dutchman I knew rushed up to me and said: 'Didn't I tell you the Americans would come sooner or later?' The neutral traveler added that although the machines merely passed over Mulheim on their way to Coblentz it was not until 4 o'clock that the 'all clear' signal was sounded.

**AMERICAN SIPSERS**

**WITH THE AMERICAN ARMIES**  
N. FRANCE, March 19.—An American patrol between Remonieres and Jui wood encountered an enemy patrol early this morning. For an hour and a half the American patrolled to make some of the enemy prisoners but without results. Although number of fights with pistols and rifles occurred, as the Germans retreated, jumping from a tree, American snipers made a number of lucky shots and Germans were seen to fall. The American telephone wires within the German lines were tapped again during the night not far from where the aerial encounter occurred. The enemy artillery fired a number of gas shells out lines.

**OFFICERS IN FRANCE**  
ON BOARD SECRETARY BAKER'S SPECIAL TRAIN IN FRANCE, March 19.—"While we are busy at home," said Newton D. Baker, the American secretary of war, in a talk to officers of the American staff school today, with our industrial preparations and winning of troops our hearts are transfixed to France. My visit has brought me a great uplift in spirit. A boy takes apart a watch to see how it is made in order to understand the functions of its parts I have been doing this army apart."

**AMERICAN ARTILLERYMEN**

**BOMBARD GERMAN TOWNS**  
WITH THE AMERICAN ARMY IN FRANCE, March 19.—American artillery on the Toul front today "bombed towns within the enemy lines several occasions. A considerable number of gas shells were used. **GOOD START MADE IN  
ENLISTING CO. G.**

A very encouraging start was made last night in recruiting Connellsville's platoon of Company C, Third Regiment, Reserve Militia. Captain Cox enlisted 12 men, which was rather more than was expected on account of the short notice given for the receipt of applications. A number of former members of Company D, 10th Regiment, National Guard of Pennsylvania, were among those enrolled last night, the recruits as a whole being well qualified for the service.

Twenty more men will be required to complete the enrollment. These must enlist before Saturday night in order that the company may be reported in readiness for muster-in as promptly after that date as possible. Captain Cox or other members of the (Continued on Page Six)

## FOOD ADMINISTRATION CALLS ON FARMERS TO SELL WHEAT BY MAY 1

County Food Director Charles L. Davidson of Uniontown this afternoon made public the following message from State Food Administrator Howard Hain:

In order that we may comply with the urgent demands of the allies for wheat and at the same time take care of our own domestic supplies, we urgently need this year an earlier and complete marketing of the wheat in farmers' hands than usual. The allies are taking from us 50 per cent of other cereals than wheat to mix in their bread. Inasmuch as the people in allied countries and the soldiers must be fed with bread baked in bakeries it is impossible for them to prepare bread wholly out of other cereals and we must furnish them with sufficient wheat to maintain their bakery loaf.

"I therefore appeal to all of the farmers in the state of Pennsylvania."

## FRANK SWEENEY AT LAST PARTS WITH HIS FAITHFUL FORD

Frank Sweeney is a silent sufferer today. He has parted company with a most faithful companion—his Ford. The car was sold yesterday to Harry Dawson, who got the machine only on his solemn promise to take the best of care of it as did Sweeney, and on the payment of a big roll of bills. The question puzzling Sweeney's friends is—did he need the money? For why else would he sell his "faithful" machine. Now Sweeney expects to hold his place in society this summer without his old standby is another question. None of the feminine sex would refuse a ride in his car. But the deed is done. Frank had tears in his eyes last evening as he told his friends he had sold the car.

**Campaign to Build Up the Organiza-  
tion to be Started in Short Time;  
Committees in Charge of Institu-  
tion Organize and Prepare for Work.**

A substantial addition to the Pittsburgh & Lake Erie railroad Y. M. C. A. at Dickerson Run, embracing an auditorium with a seating capacity of 1,000, a gymnasium and a swimming pool, is a possibility of the near future for the people of the Dawson-Dickerson Run community, if they will put their shoulders to the wheel and help along in a membership campaign that is to be launched soon. This was made known at a meeting last night of committees of the Y. M. C. A. called for the purpose of reorganization.

It is the intention of the railroad company, which created the association building several years ago, that it shall be a community institution and not for the exclusive use of railroad men. It never has been a purely railroad institution but the desire of the company is that the public shall share more largely in its advantages.

At the meeting last night was L. H. Turner of Pittsburgh, superintendent of motive power, who spoke briefly on the plans of the company. Remarks along this line were also made by Dr. H. J. Bell and Rev. W. B. Purnell, who had been informed of the tentative plans. Addresses were also made by Rev. H. A. Baum, R. K. Smith and L. H. Turner. Dr. Bell and Rev. Purnell talked on the work of the Y. M. C. A. for the soldiers at home and abroad.

## SECOND JUROR IS SECURED IN LINDLEY TRIAL AFTER 48 MEN ARE QUESTIONED

**First Accepted at 11.35  
O'clock This  
Morning**

**Special Panel to Complete the  
Jury Seemed Very Prob-  
able Today.**

**CASE MOVES VERY SLOWLY**

**Over Half of Men Examined Have  
Scruples Against Infliction of the  
Death Penalty; One Willing to  
Serve, Objects to Being Hangman.**

Up to 2.45 o'clock this afternoon two jurors had been secured in the trial of Frank M. Lindley for the murder of Frank A. Burkey. The second man, accepted at that hour, was Richard Miller, steel worker, of Pennsylvania. He was the 48th man called.

After 26 veniremen had been examined without a single juror being secured in the trial of Frank M. Lindley for the murder of Frank A. Burkey before Judge J. Q. Van Swearingen in Uniontown the first man of the 12 was agreed upon at 11:35 o'clock this morning in the person of J. H. Haggerty, a clerk of Belle Vernon.

Up to that hour the indications pointed strongly to the entire panel being exhausted without much headway having been gained in the selection of the jury. It is expected that it will still be necessary to summon a special venire, owing to the exceeding care with which the jurors are being selected.

Of other 13 men examined during the forenoon, making 26 to that time, the majority declared themselves opposed to capital punishment. Four were not opposed. One said he would vote for a verdict according to the evidence but that he did not care to be the hangman.

J. S. Samer of Dunbar-township No. 2 declared he would not vote for conviction if the evidence warranted the death penalty. "He was accepted by the defense but challenged by the commonwealth."

Joseph Burgard of Sallick township was excused because of opposition to capital punishment.

Bernard O'Connor of Connellsville, was not accepted because he said he had business dealings with the defendant and that he had a fixed opinion.

After having served on three homicide juries William C. Hawk of North Union township was rejected. He said he had no fixed opinion and was not opposed to the death penalty. He was accepted by the Commonwealth but the defense challenged him.

It was Oliver C. Brown a farmer of Franklin township who expressed aversion to being the hangman. However, he said, he would follow the evidence and would favor a first degree verdict if the evidence warranted it. He was challenged by the commonwealth.

Charles Harshman, stable boss of Buifskin township, was opposed to the death penalty absolutely and was discharged.

During the morning Judge E. H. Reppert overruled a motion to have the entire panel of jurors for term discharged because it had not been certified by the jury commissioners and the court to the prothonotary.

The jury box was without an occupant when court adjourned last evening at the close of the first day of the trial. Thirteen veniremen were examined during the afternoon but none was found acceptable. Nine were challenged by the commonwealth and two by the defense and two were excused because of illness. I. Walter Stoner of Dunbar township being interrogated when court recessed for the day at 4:30 o'clock.

Inability of prospective jurors to return a verdict of first degree murder based solely upon circumstantial evidence formed the basis for several challenges by the prosecution indicating that the prosecution will seek to weave around Lindley a chain of circumstances sufficiently strong enough to carry conviction with the jury. In interrogating the veniremen for the commonwealth, Senator Crow did not seek that information but several men made declaration that they could not conscientiously return a verdict of first degree murder based solely upon circumstantial evidence. A challenge for cause resulted.

In only one instance did counsel for the defense object to a challenge by the commonwealth. T. A. Dougherty, of Dunbar township, on examination by Senator Crow, stated that because of his opposition to capital punishment, as a principle, he would be inclined to give the defendant the benefit of the doubt in a close decision. After Senator Crow had challenged the juror for cause Attorney McKeown secured from him the statement that he would return a verdict if satisfied beyond all reasonable doubt of the defendant's guilt. Judge Van Swearingen then overruled the challenge for cause after which the commonwealth exercised its right to peremptory challenge.

## THE PARAMOUNT.

"ARGUMENTS"—A five part Triangle production in which J. Barney Sherry, supported by an all star cast, is seen in the leading role, is being presented today. Roy John Corbin, a high minded lawyer, declares that wealth and influence could free a man of murder on the grounds of insanity how he kills his compromised wife the very night of the declaration, confesses and is released. Forms one of the most gripping and powerful plays. Love, hate, suffering and the cunningness of lawyers are powerfully portrayed in this picture. It is a tremendous story of the emotions and will make a mark on the minds of millions. Audible Higgins, a well known actress of the legitimate stage, makes her initial bow before Triangle fans. Thursday, Carole Blackburn and Evelyn Greedy will be featured in "His Royal Highness", a world attraction in five acts. Friday and Saturday Mae Marsh and Tom Moore will be starred in "The Cinderella Man".

"LITTLE MISS NOBODY"—Was the offering given by the Jack Ball Stock company Monday, matinee and night. That cozy theatre, the Soisson, was filled to capacity with a large and appreciative audience. Miss Virginia Powell in the title role won her audience from the start. The mother in this delightful little romance was in the capable hands of Miss Virginia. "All the world's a stage", and Earl C. Mayo, filled the bill to perfection. Too much credit cannot be given Miss Powell for her most finished direction of this splendid offering. The scenery and draperies were beautiful. Beginning with Thursday matinee, the popular manager and actor, Jack Ball, will offer the patrons of the Soisson the play extraordinary, "Mam'zelle". The scenery and effects will alone be worth the price of admission. "Mam'zelle" is a musical comedy and everybody laughs. If the patrons want to see a real laugh producer with plenty of singing, dancing and surprises they have a treat waiting.

## REASONS YOU SHOULD SEE "WOMANHOOD, GLORY OF THE NATION"

J. Stuart Blackton's Soul Stirring Drama Being Presented at Arcade Today and Tomorrow.

Some reasons for the success of Commodore J. S. Blackton's soul-stirring drama, "Womanhood, the Glory of a Nation," starring Alice Joyce and Harry Mower with an all-star Vitagraph cast which is shown at the Arcade theater today tomorrow and Wednesday, are: New York is shown bombed from the sky. Theodore Roosevelt makes a rousing patriotic speech. Submarine are shown discharging torpedoes under water. The capital at Washington is the background for a scene containing thousands of people. Two high blooded European gallants fight a duel with rapier. Navy yards and munitions factories are seen in full blast. Zeppelins are witnessed manuevering in action. A new invention, the "aerial torpedo," is demonstrated. A clever secret wireless telephone is employed to send dispatches from a daring girl in the enemy headquarters to the American fleet. The legendary Columbus is brought to life with an invincible sword and shield. A peace-loving turns into a riot that is anything but peaceful. A quatern military machine slays his own son to enforce discipline and to gain time for a battle. A Civil War battlefield strewn with hero dead is transformed into terrain peopled with restored armies. A heroine of the nation is kidnapped in an aeroplane by foreign agents. A whole navy is destroyed in a sea of burning oil. The stroke room of a battleship is seen engulfed as the vessel founders. Gas attacks are conducted on the battlefield are reproduced with fidelity to actual conditions. President Wilson is presented delivering an oration to a victorious nation.

## TURN HAIR DARK WITH SAGE TEA

It Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyneth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, but what delights the ladies with Wyneth's Sage and Sulphur compound, is that, besides a beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use and appearance of abundance let requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## BOARDS RECEIVE INSTRUCTIONS AS TO NEXT DRAFT

Men Will be Drawn in Small Numbers at Intervals So as Not to Halt Industry.

The local draft boards of this city have received letters from the War Department, concerning the second draft, on which no date has yet been set. The letters state that the men will not be drawn in large numbers but will be carefully chosen and taken in small groups just as they are needed, and so that the cultivation of the farms of the country and the essential industries will not be unpaired by the lack of necessary skilled labor.

There has been much said concerning the second draft which is only rumor according to the letter. One thing certain, it says, that the men in Class 1-A will be the first to go and they will be called in their order of draft. The men employed in agricultural pursuits, however, will be given deferred classification and placed at the bottom of the list.

The deferred classification to men engaged in farming is really the granting of a furlough prior to entering actual service, says the letter. There is also a need for mechanics in the army but these are being drawn slowly and with care so as not to hamper the industries where they are employed. By the first of April it is expected that 10,000 men in civil life who are in the draft age will be called for by the government and will be sent to institutions to undergo two months' intensive study to become well enough acquainted with the work in which they are needed to be of service to the government, allowing the factories to retain their skilled forces.

## GLASS OF SALTS IF YOUR KIDNEYS HURT

Lost Less Meat if You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which creates and overworks the kidneys in their efforts to filter it from the system. Regular cases of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels removing all the acids waste in the poison urine you feel a dull misery in the kidney region sharp pains in the back or sick headache, dizziness, your stomach sour tongue is coated and when the web is bad you have rheumatic twinges. The urine is cloudy full of sediment the channels offer get irritated obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then in avoiding serious kidney and bladder diseases.—Adv.

## ELIMINATING THE ASSIGNED CAR.

In the contention that has arisen  
over the proposal to eliminate the as-  
signed car, and place all coal car dis-  
tribution upon the same basis, the  
coal operators appear to have very  
much the best of the argument.

That one mine, which accepts orders  
to load coal for railroad use, should  
receive cars for such orders without  
charge against its quota under the  
mine rating rules, while another mine  
of practically the same capacity, or  
operating under the same conditions,  
but without railroad orders, is charged  
with all the cars it receives, is a  
plan that has never been equitable  
and fair to the coal industry. True, it  
has often enabled mines favored with  
railroad orders to maintain a steady  
operating schedule and thus reduce  
fixed charges to the minimum, but this  
has been at the expense of other  
mines which, because of deficiencies  
in car supply, have been unable to  
operate but part time, at a higher per  
ton cost, and with resultant demoral-  
ization and dissatisfaction among  
their working forces.

From the operators' point of view  
that has been the most pernicious ef-  
fect of the system. Under it the rail-  
roads have been able to secure their  
fuel at almost the cost of production,  
and in some cases even less than cost,  
and greatly to the detriment of the  
stability of the coal mining industry.  
Under federal regulation of prices this  
part of the evil is eliminated but there  
remains the practice of giving cars to  
mines accepting railroad orders in ad-  
dition to the percentage to which they  
are entitled under the mine rating  
rules. While the gross car supply of a  
given district may thus be kept at  
or near normal, the number of cars  
for commercial coal may actually be  
very small, as has recently been the  
case, particularly in the West Vir-  
ginia fields.

In line of the present system the  
operators propose that the mines on a  
line of railroad be given an equitable  
distribution of the available cars and  
also a prorata share of orders for  
railroad fuel. This plan has the merit  
of practicability as it would involve  
no hardship upon the railroads, would  
not lessen their chances of securing  
all the fuel they need and would sim-  
plify the work of car distribution. For  
the coal industry it would have the  
very decided advantage of permitting  
practically all mines to maintain a  
fair operating schedule; would re-  
duce the overhead costs per ton of  
output; give working forces more  
working days per week and tend  
generally to stimulate production  
while placing the whole industry on a  
firmer basis.

NEWSPAPERS A WAR-TIME  
NECESSITY.

Official recognition is given to the  
fact that the daily newspaper is not  
only a war-time necessity, but that it  
is also the most efficient means at the  
command of the government through  
which to convey information to the  
people.

These facts have been admitted by  
State Food Administrator Heinz in his  
recent announcement that hereafter all  
orders, regulations, rulings, decisions,  
appeals and other communications  
emanating from the Food Adminis-  
tration will be issued solely through the  
newspapers. A few days prior to this  
announcement the newspapers, at the  
request of the Food Administration,  
began the publication of the four re-  
port blank with the accompanying  
notice that no other form than ap-  
peared in the papers would be distrib-  
uted.

To such a degree is reliance placed  
upon the ability of the newspapers to  
make a wider dissemination of infor-  
mation relating to the Food Adminis-  
tration's activities than can be ac-  
complished through the any other  
agency, that Administrator Heinz has  
given notice to the public that "all  
persons interested will understand  
that they are to depend on the public  
prints for information as to their  
duties in connection with the conser-  
vation, distribution and purveying of  
food in Pennsylvania."

While this implies an apprecia-  
tion of the value of the newspapers as  
and adjunct to the government in war-  
time, their real necessity to the nation  
in the present emergency is illustrated  
in another way by the decision of a  
local draft board in New York. A  
newspaper worker, somewhat less patri-  
otic than the vast majority of the  
craft, made claim for deferred classifi-  
cation on the ground that his work  
was necessary to the maintenance of  
the military establishment. The board  
concurred in that view and the regis-  
trant will be permitted to remain on  
his job remote from the hazards of the  
fighting lines.

While official elevation to the rank  
of public necessity is an admitted com-  
pliment to the importance of the news-  
paper, there are really few of its  
workers who will take pride in the  
fact that this recognition has resulted  
from the application of one of their  
number to be exempt from that form  
of service already gladly and willing-  
ly entered upon by so many earnest,  
capable and faithful members of the  
profession.

The tractor meet at Uniontown will  
lack some of the thrills of a Speedway  
contest but it is likely to yield a much  
more profitable return to its patrons.

The "assigned" cars are one kind of  
which the coal operators insist there  
has been an over, not an under, supply.

With Redstone township coking coal  
bringing \$1,500 per acre at private sale  
and that in Greene county selling at  
\$800 at sheriff's sale, it is plain that  
there remain buyers who have a com-  
prehending sense of coal land values.

If the Hindenburg drive is all bluff  
what a splendid opportunity the War  
Department, with the aid of the Air-  
lines, has to call in now that Secretary  
Baker is on the ground to give personal  
direction to the cabling.

The Huns are going to play tit for  
tat by appropriating American prop-  
erty in Germany. They are welcome to  
it inasmuch as Uncle Sam has much  
the better end of the trade.

You have today and tomorrow to  
make out your floor report. After  
that it will be up to the food adminis-  
trator to make the boarders shell out.

**OUR ARE HEAVILY FINED**

Indesirable Female is Ordered to Leave; Red Cross Work of the Local Chapter is Placed in Standard Class; Goes Direct to France.

Special to The Courier.  
MOUNT PLEASANT, March 19.—Local police started a clean-up crusade on Saturday and Sunday. They were assisted by Constables Ellis and McCollough. For some time drunken men have stood at the corner of alleys, and accosted women as they passed. George Dugely and George Frischens were arrested and each was fined \$10. Two others were gathered in, one leaving a \$10 fine and another \$5. Mrs. Flora King, who pleaded guilty to the use of "dope," was fined \$15. When questioned as to whether she had 10 cents to get out of town she stated that she had not, but would walk. She was cautioned not even to do her shopping in this town.

**Go Direct to France.**  
The Mount Pleasant chapter of the Red Cross has been notified that some of its boxes have reached France in good condition. Dr. B. M. Loar, chairman of the Mount Pleasant chapter has been notified that the work of the chapter being up to the standard, has been placed on the O. K. list. Boxes will be sent direct to France without opening at division headquarters. The following is a report of a recent gathering of hospital supplies held

hance, Ohio, and Merton of Charleston, Va., and one daughter, Mrs. Laura Stauffer at home. Mr. Bossart was a member of the Heptasophy, the Odd Fellows and Cantons.

### Ohio-pyle.

OHIO-PYLE, March 18.—Nelson Collier has sent a card to his friends, saying he arrived safely in France. Mr. and Mrs. George Rafferty and two children of Mount Pleasant spent Sunday the guests of the former's parents, Mr. and Mrs. W. H. Rafferty on Garrett street.

Miss Helen Robinson spent Saturday shopping and calling on Connellsville friends.

Miss Lena Mitchell, teacher at Wilkinsburg, who has spent the past week here, departed Sunday for Harrisburg where she will take up a government position.

Miss Mary Beck of Somerset is the guest of Mrs. Clara Vaughn.

W. S. Rafferty and family of Connellsville spent Sunday here.

Miss Frances Meyers and Miss Zeniah Orndorff spent Saturday evening shopping in Connellsville.

**Despondent Women.**  
Nature intends every woman to be cheerful, light-hearted and happy, but when dragged down with pain and suffering from female ills, will power alone cannot overcome a nervous, despondent condition. Multitudes of American women, however, have found that there is one tried and true remedy to restore health under such circumstances, and that is Lydia E. Pinkham's Vegetable Compound, made from herbs and roots. This old-fashioned medicine is now considered the standard American remedy for such conditions.—Adv.

**Card of Thanks.**  
L. A. Treunker and family of Dunbar desire to thank relatives and friends for the sympathy extended during the recent death of their wife and mother.—Adv.—19-1t.

## Good Night Stories

By Charles Schenck

Illustrated by Gruebe.

**THE SEEDS OF DEEDS**  
 Once upon a time there lived an old man who was very wealthy. But with all his money this old man was unhappy. He mistrusted everyone and loved no one. He was never known to say a kind word to anyone, and some said that he never smiled.

Most folks called him Grandpa Grouch because he was so grim and cross, and little children ran from him when they saw him coming.

One day as Grandpa Grouch sat before his table counting out his money, he heard a soft tapping on the arm of his chair. He looked down. A queer little elf came out from under the table.

"How did you get in here?" exclaimed the old man angrily. "I thought the door was locked."

"It is, but keys can't keep out the elfin band from Makebelieve Land. I'm Happy Giggles, at your service."

"What do you want here?" growled Grandpa Grouch, hastily pushing his money back into the bags.

"I've come to offer my help," replied Happy Giggles. "You're unhappy."

"Yes, very unhappy," cried Grandpa Grouch. "I'd almost be willing to give up my gold if someone could tell me where happiness can be found, and great tears rolled down the old man's cheeks."

"He seed of that," laughed Happy Giggles. "Happiness is one thing that money cannot buy unless you share it with those who really need it."

"But every one is after my money," cried Grandpa Grouch. "I hate the very word. There's no happiness or peace of mind in it."

"There's where you're wrong," replied Happy Giggles. "The world's a great big garden and every seed planted brings forth its deed. You've paid in your own coin. If you mistrust those around you they think the same of you. Smile and the world smiles with you; frown and the world frowns back at you."

"But no one seems to care," sobbed Grandpa Grouch, laying his head on his bag of gold.

"Always remember that kindness begets kindness and love begets love," said Happy Giggles, "and those in the world who need your help, find them."

## EVERYTHING BUT LEATHER

Now Used to Make Boots and Shoes for the German Civilians.

Leather has become so scarce in Germany that a company has been commissioned to provide the civilian population with boots and shoes made from leather substitutes. These are of many kinds, substitutes for soles, for the legs of boots and for tops substitutes made from paper, salicloth, felt, rubber horn, and above all substitutes for soles made of wood.

The lack of leather is constantly increasing as the war progresses, so that even the scraps of leather which were formerly used to the shoes will soon not be available. Such leather as is still on hand or still expected is for the most part required and used up for the army; consequently the civilian population must manage for themselves. For them the age of wooden soles is approaching, wooden soles for the times as well as the coarsest boots. During the first nine months of 1917 almost nine million pairs of wooden soles were turned out.

The St. Louis Browns took over two war-time contracts when they got the bunch of five players from the Yankees. These reminders of Federal League days are held by Joe Gedeon and Les Nunamaker and are said to call for about \$5,000 a year each.

## Sprouts After 1,000 Years.

At the Zenzi Temple, Iwano village, Koga gun, Shiga Prefecture, a very ancient wooden idol of Valsarava was opened four years ago and some rice that had reposed therein fully ten centuries was removed and planted. The seeds germinated and the rice grown therefrom appears to be similar in all respects to that of the present day. The yield was large and the crop for next year from this seed is expected to be excellent.

Valsarava is the God of Treasure. When the statue was required a bag of coarse flaxen textile was exhumed containing rice seeds with a piece of paper bearing the following inscription, in Chinese: "This image has been engraved for the peace of the world. If any one of later generations opens it, he should put in new seeds." The Tokyo Academy of Fine Art pronounces the image and its contents of great antiquity—at least 1,000 years old.

## 64 MILLIONS WORTH OF U. S. STEEL STOCK HELD BY EMPLOYEES

Mill and Office Workers Acquire 712,348 Shares in Last 12 Years.

### MOST OF IT IS PAID FOR

Big Dividends Earned During the War; Those Who Bought a Year Ago Now Receiving at Rate of \$72 Per Share; Dividends Inactive to Holders.

A summary of the United States Steel Corporation's records on profit-sharing operations show that the employees have subscribed for \$64,000,000 of the stock of the corporation on the installment plan. This large total represents the money actually paid by the workers in steel mill and office for 712,348 shares of the common and preferred stock since the profit-sharing program went into effect in 1903. The number of subscribers has been 337,446, an aggregate which represents some duplication by the same individuals, as the employees in many cases have subscribed year after year. The broad application of the stock subscription plan was emphasized when the 1918 list was closed a few days ago, with 95,337 shares subscribed for, at a total value of \$8,780,204. So heavy was the demand that the corporation was forced to "practically set aside" for subscribers this amount being 50,000 shares. The employees are allowed three years in which to pay for their stock, unless they elect to take it up by paying in full within this period.

A commentary on the prosperous conditions among the employees is supplied by the corporation's record of payments on stock subscribed for in January, 1917. In slightly more than a year nearly two-thirds of the \$7,323,220 subscribed has been paid in, and the one-third still due is being rapidly paid for in cash and the application of the large dividends to the amounts due.

Of the 49,742 shares subscribed for in January, 1916, only 3,342 remain to be paid for and no more than 1,486 of the 24,940 subscribers have yet to complete their payments. Not all of the workers who subscribed continue to the end, but it is estimated that the average of those who surrender their stock within the three years is no more than 25 per cent of the total with this average substantially reduced in years of large earnings and dividends like 1916 and 1917.

The employees who subscribed in January last year are now getting a return at the rate of \$22 a share a year. In addition to the dividends the corporation, beginning the year after the subscription is closed, pays to the stock owner \$5 a share each year for five years. This is an incentive to the worker to keep up his payments and retain the stock. Besides this at the end of each five-year period the proceeds of stock surrendered to the corporation by employees who have not kept up their

Senreco Tooth Paste Powerful To Save the Teeth and Prevent Diseases

"All dressed up with a hole in his shoe," was a bit of sarcasm a girl knew at a young man friend whose shirtfront was new except his punctured shoes. Right enough, too! Either to man or woman a shabby pair of shoes would spoil the appearance of the most elegant garments ever worn.

What about the teeth? Dress in all the finery you please, if you open your mouth exposing a decayed set of teeth your attractiveness ends right there. That's a hole in the shoe for you. This applies both to men and women. Girls and young men who lose half the admiration which would be directed toward you if you have bad teeth. You can't be pleasing with a mouthful of decay. You can't be healthy either. The condition of the teeth have a telling influence on other organs of the body. Bad teeth affect the intelligence, stomach, heart, and even the eyes. Medical science shows that bad teeth produce unhealthy conditions all over the body.

With Senreco Tooth Paste at your service—a scientifically prepared preventive of decay—there's no need of dallying a prey to these ills. No need of having a mouthful of decayed teeth.
